RAVINDU LAKSHAN WEERASINGHE

IT Undergraduate | Aspiring DevOps Engineer

Matara, Sri Lanka | +94 70 573 9422 | Ravinduweerasinghe5739422@gmail.com

LinkedIn | GitHub

Profile

IT undergraduate at the Institute of Technology, University of Moratuwa, focused on DevOps and software delivery. Hands-on practice with Ubuntu, Docker, Git, SSH and version control; currently studying CI/CD, Kubernetes, Terraform and cloud infrastructure. Experienced in full-stack project collaboration and system architecture.

Education

Institute of Technology, University of Moratuwa (ITUM) | 2025–2027
Higher National Diploma in Information Technology

Certifications & Training

DevOps Training Course — IDET | Ongoing (Lecturer: Nuwan Kawshalya)
AI/ML Engineer — Stage 1 Certification, SLIIT | 2026

Technical Skills

Programming: Java, PHP, Python | **Frontend:** React, HTML, CSS | **Database:** MySQL
Tools & DevOps: Git, GitHub, Docker, Linux (Ubuntu), SSH, Nginx, VMware
Currently learning: CI/CD (GitHub Actions), Kubernetes, Terraform, AWS/Azure
Core concepts: OOP, System Architecture, UI/UX Implementation

Selected Projects

DevOps Practice: Docker and Linux | GitHub Repository

- Built and ran v1/v2 Docker images with port mapping, release and rollback practice; managed Ubuntu VM users, permissions and SSH.

GuideLanka | GitHub Repository

- Designed a safari route optimization approach for Yala Block 5, prepared system architecture, SRS and PlantUML documentation.

ERP Asset Management Registry

- Developed frontend views in a seven-member Agile team; used Git branches for collaborative delivery.

Smart Health Monitoring System | GitHub Repository

- Built health tracking functionality including BMI, water intake and step counting; maintained project documentation.

Personal HCI Portfolio Website

- Built a responsive portfolio and deployed it using Netlify.

Experience

Marketing Intern — Bank of Ceylon (Southern Province Office) | March 2024 – August 2024

- Coordinated digital meeting setup, scheduling and first-line technical troubleshooting.
- Organized and entered customer datasets to support outreach and operational processes.
- Collaborated with senior officers to support digital banking promotion and client communication.
